

Aurora's Engineering College

Bhongir, Nalgonda Dist.

PLACEMENT BROCHURE 2015

About The College

Aurora's Engineering College, established in the year 1998, offers undergraduate engineering programmes in the disciplines of CSE, ECE, EEE, MECH, IT and CIVIL Engineering, and M.Tech. programmes in 11 specializations besides MBA/MCA post graduate programmes. Right from the inception, the college has pursued quality education as the cornerstone of its educational policy and all its practices have evolved around this aim. Situated in Bhongir, on the Hyderabad-Warangal National Highway, away from the hubbub of the city, yet reachable within 45-50 minutes from the twin cities of Hyderabad & Secunderabad by many modes of transport, it offers a valuable learning atmosphere to its students who pursue their education to turn out of the college not only as excellent technical professionals but also excellent human beings imbibing proper positive values and acquiring the potentials to become worthy citizens and valuable human resource of the nation. In the post graduate (M.Tech/MBA and MCA) programmes, students, pursue academic excellence through high level academics and highly research oriented project work.

Vision

To be synonymous with learning and be a center of excellence in technical education that lays emphasis on Research, Development, and Innovation, for providing eminent professionals to society.

Mission

To achieve academic excellence and develop dynamically socially conscious technical leaders through career oriented courses with student centric learning process.

Quality Policy

To strive for providing uncompromised and complete education preparing every student for the future.

Message From Director, Placements

Placement season is always an exciting period. Ambition of majority of the students is to get a decent job immediately after completing the studies.

Responsibility of the Educational Institutions in general and the professional colleges in particular is to impart knowledge both theoretical and practical, make the student understand broad perspectives of respective field of study, with an ultimate aim of making the outgoing students readily employable.

*In the yesteryears, professional competency was good enough to get a job but **presently what is most needed is a well rounded personality covering academic competency, application of concepts, ability to express clearly, good attitude and leadership qualities.** Ability to use technology as a tool is yet another essential competency required.*

*Every student who is aspiring for a great job, must know clearly that the prerequisite to grab a decent job is to become competent. **Knowledge, Will, Skill and Zeal are the essentials.** What matters is **Focus and Determination to get a Job.** Eat, Drink and Breath, placement from Day one of your Final year.*

Students of Aurora colleges are fully aware of the importance of large, medium and small companies in the larger picture of industry and so also core, IT and service sectors. With this kind of preparation at Aurora, corporates will find our students meeting or exceeding the industry needs.

*We invite companies from all sectors to visit our campus to scout for the best of freshers.
Wishing you all the best.*

Dr. Raghu N Prabhakar
Director, Training and Placements, AES

Message From The Principal

Aurora's Engineering College has always been in the forefront in identifying the needs of the industry and training the undergraduate and postgraduate students as per their requirements. The training and placements cell at our college identifies these needs and conducts various training programmes, workshops, and seminars to improve both the technical skills and soft skills of our students.

Choosing a career after graduation is a major decision and many of our students are uncertain about which path to choose. The Center for Career Guidance of the college plays an important role in this decision making process from the moment a student joins the college. This helped us in identifying the students who are aiming to secure a job after graduation and students who are aiming for higher education. Due to this, our students are more focused and trained towards achieving their goals and the employers of our students are benefited.

Our alumni are working with several multi-national companies in India and abroad occupying prestigious positions and have brought great laurels to the college. Some of them visit the college regularly to help the current students understand the challenges they face in the industry and ways to tackle them.

We are sure that our graduates serve you with utmost sincerity, dedication, and hard work, and will prove to be an asset to your organization. We heartily invite you to visit our campus and recruit our graduates and look forward to meet you soon.

Message From Training & Placements Officer

Placements are benchmark to the performance of any institute and it depicts the success and the growth of the institutions.

AEC has been established to adopt and impart holistic Education to fulfill the needs of the industry. The students are well equipped to perform effectively in any environment. The Institute gives prominence to ensure that the qualified technical graduates as well as post graduates in the streams of Engineering and Management receive good placements. We strive to achieve this through constant interaction with the industry through Guest Lectures, summer internships, management research projects, on-campus and off-campus placements initiatives.

We take care to groom our students according to the needs of the industry. We seek to open frontiers of knowledge and reveal new horizons of change, to broaden mindsets and to create positive attitudes in our students. Our students get a lot of exposure to real life by their frequent industrial visits, seminars, internships and live projects. This has helped to inculcate in the students a mindset that prepares them for the challenging demands of Industry and Corporates.

I am proud of what we at AEC have achieved and look forward to more with optimism and confidence. I wish a very successful career ahead to all the students of AEC and feel confident that they will make significant contributions to the organizations they join.

With immense pleasure and pride I invite you to participate in our shared goal of excellence in technical education.

Mr. GVSSN Srirama Sarma
Training & Placement Officer

Why Recruit @ AEC?

Central Facilities @ AEC

Spacious Library with 50000 volumes

Auditorium with 1000 capacity

Multimedia enabled Seminar Halls

Excellent Transportation with AC buses

Computing Centre @-AEC

One of our strongest facility..
having 1250 highly configured
computers with 20 Mbps internet
connectivity and Wi-Fi

Training and Placements Cell

Functions of TPC

Placements form an integral part of AEC. At AEC we ensure better placements for all by constituting a dedicated placement committee comprising of faculty and students selected after a transparent and impartial process. The College has a separate Training and Placement Cell. The Placement Committee consisting of one faculty representing each department decides the guidelines for the placement activity.

Guest Lectures and Training Programmes are arranged for the students. We always endeavor to build such capabilities among the students in a systematic manner. The training and placement division has a focused approach to prepare students right from the second year of joining the college. We address two different aspects of students' capability. Experienced teaching staff takes care of the technological abilities to recall knowledge gained during academics for application at work place and secondly the soft skills required which plays an important role in the industry today. We also have facilities within college premises for conducting campus interviews and these include those for presentation, conducting aptitude tests, group discussions and interview techniques. Sessions are also arranged on Resume Writing.

Training and Placement division aims at specifically developing these abilities through planned training for the students. The institute looks forward to conducting such activities with the help of selected internal and external faculties. This training includes personality development, communication skills, and extensive exercises to inculcate analytical abilities empowering students to interpret data faster.

Scope

The committee aims to accomplish the following every academic year:

- Preparation of an attractive and comprehensive Placement Brochure
- Organizing Pre-Placement Seminars by Companies
- Getting the Pre-Placement Job Announcement Form (declaration) filled in by the representatives of each visiting company
- Maintaining and regularly updating Database of Students
- Maintaining Database of Companies and establishing strategic links for campus recruitments
- Gathering information about Job fairs and all relevant recruitment advertisements
- Coordinating with companies to learn about their recruitment procedures
- Identifying the needs and expectations of the companies to assist them in recruiting the most suitable candidates
- Organizing pre-placement training for students(Soft Skills, Technical sessions, Mock Interviews)
- Collecting feedback from employers where our students are placed
