JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD

III Year B.Tech. EEE-II Sem

C -/-/-

(A60009) ENVIRONMENTAL STUDIES

Objectives:

- Understanding the importance of ecological balance for sustainable
- Understanding the impacts of developmental activities and mitigation 2.
- Understanding the environmental policies and regulations. 3.

Ecosystems: Definition, Scope and Importance of ecosystem. Classification. structure and function of an ecosystem, Food chains, food webs and ecological pyramids. Flow of energy, Biogeochemical cycles. Bioaccumulation, Biomagnification, ecosystem value, services and carrying capacity, Field visits.

Natural Resources: Classification of Resources: Living and Non-Living resources, water resources: use and over utilization of surface and ground water, floods and droughts, Dams: benefits and problems. Mineral resources: use and exploitation, environmental effects of extracting and using mineral resources, Land resources: Forest resources, Energy resources: growing energy needs, renewable and non renewable energy sources, use of alternate energy source, case studies.

UNIT-III:

de

Biodiversity and Biotic Resources: Introduction, Definition, genetic, species and ecosystem diversity. Value of biodiversity; consumptive use, productive use, social, ethical, aesthetic and optional values. India as a mega diversity nation, Hot spots of biodiversity. Field visit. Threats to biodiversity: habitat loss, poaching of wildlife, man-wildlife conflicts; conservation of biodiversity: In-Situ and Ex-situ conservation. National Biodiversity act.

UNIT-IV:

Environmental Pollution and Control Technologies: Environmental Pollution: Classification of pollution, Air Pollution: Primary and secondary pollutants, Automobile and Industrial pollution, Ambient air quality standards. pollution: Classification of pullution, Ambient air quality pollutants, Automobile and Industrial pollution, Ambient air quality pollutants, Automobile and Industrial pollution, drinking water quality water pollution: Sources and types of pollution, drinking water quality and on this course, the Engineering graduate will understand /evaluate / standards. Soil Pollution: Sources and types, Impacts of modern agriculture, degradation of soil. Noise Pollution: Sources and Health hazards, standards, degradation of soil. Noise Pollution: Sources and Health hazards, standards, standards,

paracteristics of e-Waste and its management. Pollution control chnologies: Wastewater Treatment methods: Primary, secondary and

werview of air pollution control technologies, Concepts of bioremediation. global Environmental Problems And Global Efforts: Climate change and pacts on human environment. Ozone depletion and Ozone depleting pacis of the color of the pacis of the pacing of the pacis of the pacis of the pacis of the pacis of the pacing of the pacis of the pac photos / Protocols: Earth summit, Kyoto protocol and Montréal Protocol.

gvironmental Policy, Legislation & EIA: Environmental Protection act, gal aspects Air Act- 1981, Water Act, Forest Act, Wild life Act, Municipal agal aspects. Municipal old waste management and handling rules, biomedical waste management ad handling rules, hazardous waste management and handling rules. EIA: A structure, methods of baseline data acquisition. Overview on Impacts of sessment, Concepts of Environmental Management Plan (EMP). Towards ustainable Future: Concept of Sustainable Development, Population and explosion, Crazy Consumerism, Environmental Education, Urban Sprawl, man health, Environmental Ethics, Concept of Green Building, Ecological of Print, Life Cycle assessment (LCA), Low carbon life style.

IGGESTED TEXT BOOKS:

Textbook of Environmental Studies for Undergraduate Courses by Erach Bharucha for University Grants Commission.

Environmental Studies by R. Rajagopalan, Oxford University Press.

FERENCE BOOKS:

Environmental Science: towards a sustainable future by Richard T.Wright. 2008 PHL Learning Private Ltd. New Delhi.

Environmental Engineering and science by Gilbert M.Masters and Wendell P. Ela .2008 PHI Learning Pvt. Ltd.

Environmental Science by Daniel B.Botkin & Edward A.Keller, Wiley

Environmental Studies by Anubha Kaushik, 4th Edition, New age international publishers.

Text book of Environmental Science and Technology - Dr. M. Anji Reddy 2007, BS Publications.

dcomes:

elop technologies on the basis of ecological principles and environmental
